## FRONTEND DEVELOPER

I am a passionate developer with hands-on experience in building web applications using HTML, CSS, Bootstrap, JavaScript, Node.js, Express.js, and MongoDB. I have developed responsive and visually engaging front-end interfaces using both hand-crafted Vanilla CSS and Bootstrap frameworks. I aim to create innovative solutions and streamline business processes, consistently striving for excellence in functionality and quality.

### PROJECTS

#### WANDERLUST : A HOTEL BOOKING SITE

Developed a responsive hotel booking web application using HTML5, CSS3, Bootstrap, JavaScript, Node.js, Express.js and MongoDB. Architected and implemented RESTful API endpoints for CRUD operations on hotel listings and user reservations, achieving 100% test coverage for critical routes. Integrated serverside validation and robust error handling, improving data integrity. Technologies used: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB.

#### ZENXUARY (IN PROGRESS )

Build a professional networking prototype with HTML, CSS, Node.js, Express.js, and MongoDB to allow businesses to create, manage, and showcase profiles. Developed a clean, attractive, and user-friendly frontend interface that delivers a smooth experience even without active database connectivity. In this project, the frontend work is completed, and backend work is in development. Skills used - HTML, CSS, Javascript, Node.js, Express
